

How to Access Documentation on Discord

Thank you for purchasing the Low Poly Animated - Modern Guns Pack!

This is a quick guide explaining how to access the documentation for the asset.

To ensure that only verified customers receive support and access to our documentation, we have implemented a Discord verification system. This measure is in place to prevent piracy of the asset.

Note: You need to have a Discord account in order to be verified and access the documentation.

Here Is How to Do It

1. Visit the store page for the asset and click on the **Discord** link in the description.

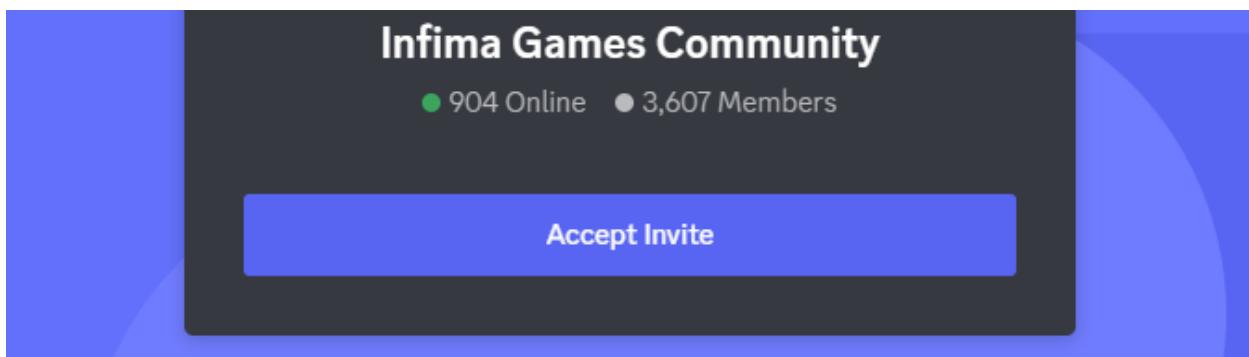

- And more!

Technical details

You can find all of our documentation and tutorial videos in our [Discord Server!](#)

Related keywords

2. This will open up a new tab in your browser window, join the discord server by clicking on the **Accept Invite** button.

3. After joining the server, please send us an email at: support@infimagames.com including your **Invoice Number** or **Order ID**, as well as your **Discord tag**.

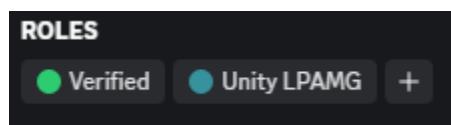

Email Example

To: support@infimagames.com
Subject: Discord Verification Unity Low Poly Animated - Modern Guns Pack
Hello,
I want to get verified on Discord in order to access the documentation for “Unity Low Poly Animated - Modern Guns Pack”.
Invoice number: IN000000000000
(Or)
Order ID: #00000000000000
Discord username: User#0000
Thanks!

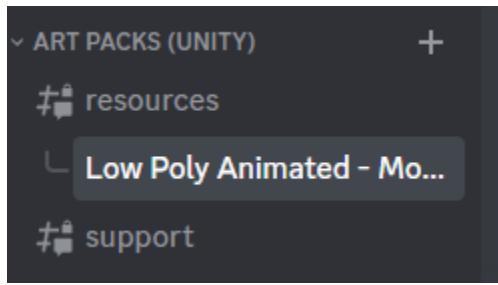

The **Invoice Number** or **Order ID** can be found in the receipt from Unity, or under the **Order History** of your asset store account.

4. Verification requests are processed manually, and approval may take 1-3 business days.

Once you are verified you will receive two new server roles, **Verified** and **Unity LPAMG**.

This will grant you access to the **resources** thread which contains the documentation and guides, as well as access to the **support** thread.

Thank you for your patience, and we hope that you enjoy the asset!
